

Agency Contract Billing Enhancement

ATIMS JMS

Release Version 1.13.0

Business Need

- ❑ Currently, ATIMS has a Prisoner Support report with hardcoded splits and a single daily rate model.
- ❑ There is a need for custom billing reports based on specific needs.
- ❑ ATIMS needs to provide a more configurable Agency Billing solution

ATIMS Solution

- ❑ ATIMS has enhanced the Agency Billing Entry configuration and added reports to reflect these changes.
- ❑ Agency Split Flag
- ❑ Tiered Daily Rate Configuration
- ❑ Billing Rules Configuration
- ❑ New Billing Reports.

Functionality

- ATIMS has added new configurations per Agency for contract billing.

Agency Split Configuration

- ❑ Agency Split is a new concept that allows an agency to configure if and how they will split the cost of housing an inmate with another agency.
- ❑ Note: This flag only handles whether or not to charge the agency full or split price.
- ❑ An agency that will only pay if they are the sole responsible agency will need to be set up as a rule.

Tiered Rate Configuration

- ❑ Billing rates can now be entered as either flat or tiered.
- ❑ The flat rate functions the same as before; no configurations will be lost.
- ❑ The tiered rate applies a daily rate based on the total inmate count per agency.
- ❑ Using tiered rates can incentivize a contract agency to want more beds at a lower cost.
