V2-19009	Add additional Look up flag for Arrest Type (Case Type) to address V2CS -4034 properly	This Look up flag will bypass the Duplicate Docket Verification associated with Case, Warrant and Order duplication check and allow for the Case, Warrant and or Order to be created. It is only intended to be used for those case types where Docket #'s stay the same for the life of the case type.	6/24/2024 15:35	8/30/2024 10:53	2.10.7
V2-18883	Biometric Intake Validation 2 Fingerprint Test Mode	ATIMS has added the ability to create a test harness for the biometric identification functionality within ATIMS. In order to use this feature, the option for BIOMETRIC INTAKE VALIDATION must be ON. A new option was added for BIOMETRIC INTAKE VALIDATION TEST HARNESS when this is turned ON, a button will be made visible that will allow users to insert test records of biometric data.	6/3/2024 13:13	8/9/2024 9:44	2.10.4
V2-18951	Add new SITE OPTION for MAIL DEFAULT PRINT LABEL	ATIMS has created a new site option in Administration Management to control the default setting for printing labels while processing New Mail in the Mail submodule.	6/14/2024 16:51	8/1/2024 14:47	2.10.3
V2-18933	Grievance create- remove validation requiring Active inmate for creation	ATIMS has created the ability for agencies to generate grievances for out of custody individuals, to process through completion.	6/12/2024 9:10	7/24/2024 15:20	2.10.0
V2-18954	Weekender ACS Site Availability Next Day Option	ATIMS has added the ability to schedule weekenders to allow for next day overlap, effectively allowing scheduling for a 24 hour attendance clock vs any part of a day.	6/17/2024 14:48	7/3/2024 5:32	2.9.30
V2-18087	Transport After Release (Update UX)	ATIMS added a Scheduled Future External Transport Appointments field under an updated Transport Info grid.	2/7/2024 18:38	7/18/2024 11:54	2.9.30
V2CS-4190	CLONE - Batch Activity Logs for Non-Housing Locations	Batch Activity Log Grid now displays inmates in two categories, Inmates in housing pods and inmates checked out to housing locations.	6/17/2024 9:05	8/13/2024 11:10	2.9.30
V2-16925	Stats-Prisoner Support by Agency Report Rewrite Re-title to "Contract Billing"	Rewrite of the Prisoner Support by Agency Report to clean up report metrics and layout.	8/29/2023 7:42	5/29/2024 14:41	2.9.28

## RELEASE NOTES ATIMS V2 InCustody

Issue key	Summary	Release Note	Created	Updated	In Build
V2CS-3785	CLONE - Require Case to be associated with a Court Appointment	Added a set of radio buttons to the Appointment entry pop-up window when scheduling court location appointments. Selecting a case to be associated with the court appointment will be required when "Case Required" radio button is selected. A case will not be required when "Case Not Required" button is selected. "Case Required" will be selected by default.	2/7/2024 8:19	6/19/2024 8:53	2.9.28
V2-18297	Court Commit Queue Sorting and color legend.	ATIMS has created a color legend to help users distinguish between overdue, future and the current day's commitments. A link for "Today" helps users navigate to the current day and commitments can now be sorted in ascending or descending order.	3/27/2024 14:27	5/20/2024 16:52	2.9.27
V2-17088	Stats-Prisoner Support by inmate rewrite to "Billing, Contract Billing Reconciliation"	Rewriting the prisoner support reports for billing. This report will be the reconciliation report that gives the detail and proof of billing for the inmate contract billing report. Both prisoner support billing reports will be moved from "stats" in the report category to "billing".	9/19/2023 10:34	8/23/2024 12:52	2.9.27

**RELEASE NOTES ATIMS V2 InCustody**

Issue key	Summary	Release Note	Created	Updated	In Build
V2-18119	PDP Consecutive Sentence Fix for Min Use Start Date	ATIMS has added new functionality for clients using indeterminate sentencing. In conjunction with the prior Minimum sentence enhancements, ATIMS add a new field for Minimum Use Start Date which would fix an issue for gap time for consecutive sentences between cases. The solution would use this new field to carry the consecutive sentence to min scheduled clear date into the Min Use Start Date field. Then the Minimum Schedule Clear Date would use this new field and prevent any gap time.	2/16/2024 17:43	4/2/2024 15:20	2.9.17
V2-18019	Pod Management Checked Out Module	ATIMS has added a new module to allow pod officers to view all checked out inmates in one list per housing selection to check them back in. The current solution only allows per location view whereas this solution bypasses the location and show all inmates out irrespective if they were scheduled or unscheduled.	1/24/2024 13:25	4/3/2024 15:29	2.9.17
V2-17082	Stat's Monthly Count by Facility, change to "Monthly Count" with new format	Updating the monthly count stats report, following the same format re-write as the yearly stats report was done in. Ref. following ticket # V2-16989	9/18/2023 8:19	3/28/2024 13:04	2.9.15
V2CS-3983	CLONE - Stat's Monthly Count by Facility, change to "Monthly Count" with new format	Updating the monthly count stats report, following the same format re-write as the yearly stats report was done in. Ref. following ticket # V2-16989	3/28/2024 12:50	4/10/2024 13:54	2.9.15
V2-17801	Registered Visitation Schedule report rewrite & update	Registered Visitation Schedule report re-write to update format, and allow for better review of three levels of visitation scheduling.	12/12/2023 11:59	8/1/2024 10:11	2.9.15
V2-15980	Professional Visitor Inmate List	ATIMS has added the ability to create an inmate visit list for a professional visit registration. By default a new step 5 called "Professional Visit Inmate List" was added which will allow adding inmate and their visit registrations. A new visitor pass was created for a multi inmate visit so that only 1 print is needed for the visitor.	5/1/2023 11:32	6/5/2024 16:30	2.9.14
V2CS-3325	Contact Attempt Additional Entry	ATIMS has added a new contact attempt type detail field to store the value of the contact attempt. Effectively, this field will store the phone number or email or address used for the contact attempt instead of using the note field. ATIMS has added some setting to allow this field to be required and additional setting to default the value based on demographic entry that already exists in the system. Setting are in ADMIN->System->Lookup under the CONTACT ATTEMPT TYPE lookup type.	9/29/2023 9:41	4/10/2024 13:02	2.9.13

## RELEASE NOTES ATIMS V2 InCustody

Issue key	Summary	Release Note	Created	Updated	In Build
V2-16997	Biometric Intake Identity Validation - 2 Fingerprint Queue Enhancement	<p>ATIMS has created a new solution for handling a 2 fingerprint biometric read. This solution assumes that the agencies livescan or AFIS solution provides the reader and hit logic against the local AFIS/State system for biometric match. The results of the read will feed into ATIMS into staging queue that will be made available during the intake identity process. The process will force the user to select from the biometric match and offer the creation of a new person from the biometric read data. A bypass option will be available in case the biometric reader is down and the inmate has bad prints or the user cannot get a print. The solution will only be available if a new site option is turned ON and a corresponding interface to inbound the data would need to be scoped and implemented.</p>	9/8/2023 12:52	8/23/2024 13:34	2.9.13
V2-17314	Sequence Number for Charges Display	<p>ATIMS has exposed the "Charge Sequence" number throughout the application. Any client wishing to revert back to having it hidden can set a new site option called CHARGE SEQUENCE NUMBER DISPLAY = OFF. The number will be displayed at the beginning of any charge data and will have a "#" in front of the sequence to help separate it from the charge count.</p>	10/18/2023 9:13	5/21/2024 16:52	2.9.9
V2-16229	Weekender UX in ACS	<p>ATIMS has added capability in ACS to support a weekender program. A program must be configured in ADMIN to set a weekender. Enrollment and works the same as a site managed ACS program. New queues were added in Intake and Release for weekenders. During a weekend stay the inmate is transferred to the main facility and then transferred back to a home stay facility for a weekend. Attendance will be tracked and once attendance is met, the inmate is released.</p>	6/20/2023 9:52	7/17/2024 15:31	2.9.9
V2-17299	Payroll For Programs And Work Crew	<p>ATIMS has integrated Inmate Pay with attendance for work crew or programs. New settings in ADMIN can be configured to pay inmates for work or programs. Each Program or Crew will have setting to turn on payments. In addition, the source of payments need to be setup to pay from an Inmate Pay fund. After turning these options ON and configuring work crews and or programs to pay inmates, the point forward solution will allow users during attendance to apply and manage pay options. ATIMS has also created a Run Payroll, which can executed manually at anytime or be configured using the ATIMS interface engine to run on a schedule based on a pay period. The Run Payroll will find all unique inmates for each program or crew that have not been paid and will sum the totals to issue a payments. New modules have been created in Money to see these transactions and allow search for historical attendance.</p>	10/16/2023 17:32	5/10/2024 13:10	2.9.7

## RELEASE NOTES ATIMS V2 InCustody

Issue key	Summary	Release Note	Created	Updated	In Build
